REFERENCE : 56843-66, Draft

1. The Office of Special Projects is in general accord with reference document. We agree that the Project Director should in all instances determine what specific information is required by the exploitation personnel and also the extent of dissemination of such information.

2. Whether or not such information regarding the sensor system can be disseminated under TKH controls is a policy decision which we defer to the Director of Security. In any case, we would assume that comparable security criteria would be employed for clearances whether under the TKH or category.
